

M19.1 Solution Guide - Advanced Dashboards

In this activity, you modified your dashboard to add a time range input as well as a drilldown capability to one of the panels.

Using the same dashboard, add the following features:

1. Time-based input on all panels:
 - Select Edit on the dashboard.
 - Select Add Input > Time.
 - Under each panel, select the magnifying glass icon to edit the search.
 - For the time range, select Shared Time Picker.
2. A drilldown in the geographic map that links to new searches:
 - Click Edit on the dashboard.
 - Select the three vertical dots on the map for more actions.
 - Select Edit Drilldown.
 - Select Link to search in the drop-down.
 - Leave Auto selected.
 - Select Apply.
 - Save the dashboard.
