

Module 19 Day 2: Advanced Security Monitoring

OMP management approves a larger budget for the SOC to enhance security monitoring.

- Research several SOAR, UBA, XDR and UEBA vendors to provide a summary to your management about the products you recommend.

Instructions

1. Review the following lists of vendors for the following products:
 - [UBA and UEBA](#)
 - [XDR](#)
 - [SOAR](#)
2. Select a vendor for each product.
3. Research each product by visiting the vendor's website.
 - For example, research Rapid7's InsightIDR on the [InsightIDR product page](#).
4. Write a summary of your chosen products and include the following information on each:
 - Features (e.g., it provides a variety of visualizations)
 - Advantages compared to other products (e.g., easier installation and deployment)
