

Module 19 Day 2: Splunk Careers

For this activity, you will search specific job sites for Splunk-related roles and answer questions on the positions you find.

Instructions

Use the job search boards [indeed.com](https://www.indeed.com) and [dice.com](https://www.dice.com) to complete the following:

- Search for jobs with the term "Splunk" in your geographical area or a nearby major city.
- Review the listings that are returned and answer the following questions for each website:
 1. Approximately how many jobs were returned?
 2. Document several jobs where Splunk is the primary responsibility or is in the title of the position.
 - Are most of these associated with the information security field?
 3. Document several jobs where Splunk is a required skill.
 - Are most of these associated with information security?
 4. Do any listings mention Splunk certifications?
