Project 3 Review Questions

Make a copy of this document before you begin. Place your answers below each question.

Windows Server Log Questions

Report Analysis for Severity

- Did you detect any suspicious changes in severity?

[Enter answer here]

Report Analysis for Failed Activities

- Did you detect any suspicious changes in failed activities?

[Enter answer here]

Alert Analysis for Failed Windows Activity

- Did you detect a suspicious volume of failed activity?

[Enter answer here]

- If so, what was the count of events in the hour(s) it occurred?

[Enter answer here]

- When did it occur?

[Enter answer here]

- Would your alert be triggered for this activity?

[Enter answer here]

- After reviewing, would you change your threshold from what you previously selected?

[Enter answer here]

Alert Analysis for Successful Logins

- Did you detect a suspicious volume of successful logins?

[Enter answer here]

- If so, what was the count of events in the hour(s) it occurred?

[Enter answer here]

- Who is the primary user logging in?

[Enter answer here]

- When did it occur?

[Enter answer here]

- Would your alert be triggered for this activity?

[Enter answer here]

- After reviewing, would you change your threshold from what you previously selected?

[Enter answer here]

Alert Analysis for Deleted Accounts

- Did you detect a suspicious volume of deleted accounts?

[Enter answer here]

Dashboard Analysis for Time Chart of Signatures

- Does anything stand out as suspicious?

[Enter answer here]

- What signatures stand out?

[Enter answer here]

- What time did it begin and stop for each signature?

[Enter answer here]

- What is the peak count of the different signatures?

[Enter answer here]

Dashboard Analysis for Users

- Does anything stand out as suspicious?

[Enter answer here]

- Which users stand out?

[Enter answer here]

- What time did it begin and stop for each user?

[Enter answer here]

- What is the peak count of the different users?

[Enter answer here]

Dashboard Analysis for Signatures with Bar, Graph, and Pie Charts

- Does anything stand out as suspicious?

[Enter answer here]

- Do the results match your findings in your time chart for signatures?

[Enter answer here]

Dashboard Analysis for Users with Bar, Graph, and Pie Charts

- Does anything stand out as suspicious?

[Enter answer here]

- Do the results match your findings in your time chart for users?

[Enter answer here]

Dashboard Analysis for Users with Statistical Charts

- What are the advantages and disadvantages of using this report, compared to the other user panels that you created?

[Enter answer here]

Apache Web Server Log Questions

Report Analysis for Methods

- Did you detect any suspicious changes in HTTP methods? If so, which one?

[Enter answer here]

- What is that method used for?

[Enter answer here]

Report Analysis for Referrer Domains

- Did you detect any suspicious changes in referrer domains?

[Enter answer here]

Report Analysis for HTTP Response Codes

- Did you detect any suspicious changes in HTTP response codes?

[Enter answer here]

Alert Analysis for International Activity

- Did you detect a suspicious volume of international activity?

[Enter answer here]

- If so, what was the count of the hour(s) it occurred in?

[Enter answer here]

- Would your alert be triggered for this activity?

[Enter answer here]

- After reviewing, would you change the threshold that you previously selected?

[Enter answer here]

Alert Analysis for HTTP POST Activity

- Did you detect any suspicious volume of HTTP POST activity?

[Enter answer here]

- If so, what was the count of the hour(s) it occurred in?

[Enter answer here]

- When did it occur?

[Enter answer here]

- After reviewing, would you change the threshold that you previously selected?

[Enter answer here]

Dashboard Analysis for Time Chart of HTTP Methods

- Does anything stand out as suspicious?

[Enter answer here]

- Which method seems to be used in the attack?

[Enter answer here]

- At what times did the attack start and stop?

[Enter answer here]

- What is the peak count of the top method during the attack?

[Enter answer here]

Dashboard Analysis for Cluster Map

- Does anything stand out as suspicious?

[Enter answer here]

- Which new location (city, country) on the map has a high volume of activity?
(**Hint:** Zoom in on the map.)

[Enter answer here]

- What is the count of that city?

[Enter answer here]

Dashboard Analysis for URI Data

- Does anything stand out as suspicious?

[Enter answer here]

- What URI is hit the most?

[Enter answer here]

- Based on the URI being accessed, what could the attacker potentially be doing?

[Enter answer here]

Add on App Questions

- What was the add on app you selected and how would it be used?

[Enter answer here]
