

Module 3 Day 3 Activity File: Warm-up

- You are a security analyst at Candy Corp. Thanks to your work so far, Candy Corp's management was able to apprehend Ruth and Henry.
- The local authorities have video evidence that Sugar Corp delivered a cash payment to Candy Corp's back door on October 13, 2019.
- You are tasked with gathering physical access logs to prove Henry or Ruth opened the back door for the delivery. This will help the authorities solidify their case.

Instructions

Using only the command line, complete the following tasks from within the `/03-student/day2/warmup/` folder in your Ubuntu virtual machine:

1. Make a directory in the `warmup` folder, called `additional_evidence`.
2. Navigate to the directory that contains the `physical_access_logs` directory.
3. Using preview commands, identify the physical access logs that contain files for October 13, 2019.
4. Combine these files into a single file, called `Physical_Access_evidence`.
5. Move this new file to the `additional_evidence` folder.
