

Activity File: Documenting Company Policies

- In the previous class, you performed a risk analysis to help GeldCorp gain visibility into its most prominent threats. Since then, the company has used your results to set numerous internal security goals.
- In this activity, you will develop a policy for one of these goals. You will choose from a list of three options

Instructions

1. Use one of the following three goals to develop a company policy.
 - Eliminate tailgating at all main offices.
 - Note: Tailgating is when an employee holds the door to a building open for others, allowing them to enter without scanning their ID.
 - Guarantee 99% uptime for all trading applications.
 - Reduce how often developers access customer PII that they don't need for their projects.
2. Use the following template to fill out your policies.

Unset

DATE:

AUTHOR:

<Policy Name>

PURPOSE

What security benefit does this policy bring?

DESCRIPTION OF <Policy Name>

What are the terms of the policy?

ENFORCEMENT

How will this policy be enforced?

MONITORING

How will the effectiveness of this policy be measured?

Work in pairs on this assignment, and don't hesitate to ask your instructional staff and/or classmates for help if you get stuck.
