

Module 18 Day 1: Choosing a SIEM Vendor

Activity Instructions

The CIO at OMP would like you, the SOC manager, to select a SIEM product vendor.

- You are tasked with analyzing several SIEM vendors and selecting the best one for OMP.
- Once you have selected your SIEM vendor, you will answer several questions to explain your decision to senior management.

Instructions

1. Review and select a SIEM vendor from the following list. Use Google to assist in your research.
 - RSA NetWitness
 - AlienVault USM
 - ELK
 - IBM Security QRadar
 - MicroFocus ArcSight ESM
 - McAfee Enterprise Security Manager
 - LogRhythm
 - Splunk Enterprise Security
 - Solarwinds Log and Event Manager
 - Securonix
2. Answer the following questions about your SIEM vendor selection. Use Google if necessary.
 - What is the name of the SIEM product you selected?
 - What is the name of the SIEM vendor?
 - What are the features of this SIEM?
 - What are the primary advantages of this SIEM?
