

Module 11 Day 1: Cryptography

Activity File: Caesar Cipher Code Names

You will play the role of a security analyst working for the Hill Valley Police Department.

- There have been a number of burglaries in Hill Valley by the mysterious Alphabet Bandit. You've been assigned to a top secret task force to apprehend this criminal.
- Since anonymity is critical, the Hill Valley police captain would like you to create a code name, encrypt it, and share it only with your partner.

Instructions

1. Choose a partner.
2. Think of a code name that will be used for future communications. (Please keep it appropriate.)
- You can use the [Fantasy Name Generators website](#) to come up with a clever name.
3. Use the Caesar cipher with a key of three to encrypt your code name.
4. Send the encrypted code name to your partner using Slack.
5. Receive and decrypt your partner's encrypted code name.
