

Module 11 Day 1: Cryptography

Activity File: Ciphers

You will continue the role of a security analyst working for the Hill Valley Police Department.

- Unfortunately, you weren't able to act fast enough and Dr. Brown's house was burglarized.
- The Alphabet Bandit again left an encrypted secret message at Dr. Brown's house.
- Another detective found a crumpled up note in the trash that may contain the key to decrypting the message.
- You must use the key to decrypt the most recent message left by the Alphabet Bandit.

Instructions

1. View the message and note from the trash left at Dr. Brown's House.
2. Use the transposition cipher key contained within the note to decrypt the ciphertext.

Message: u Yocanen vecar tcthh e phAlab Betant,di Mney xtar Tgeist CviaInsou Hse
