

## Module 11 Day 1: Cryptography

### Activity File: Decoding

You will continue the role of a security analyst working for the Hill Valley Police Department.

- There was another burglary last night, which occurred at Mayor Wilson's residence.
- The bandit left behind an encoded message at the Mayor's house.
- You are tasked with decoding the message to determine the bandit's next target.

#### Encoded Message

### Instructions

1. View the message left at the Mayor's house, provided in the TXT file. Use one of the following websites to decode the message:
  - [Browserling](#)

- [Rapid Tables](#)
2. Document the bandit's next target to provide to the police department.
