

Module 11 Day 3: Cryptography

Activity File: Steganography

You will continue your role as a security analyst working for the Hill Valley Police Department.

- Unfortunately, the Alphabet Bandit committed another burglary—this time at Mrs. Peabody's house.
- The Alphabet Bandit left a thumb drive that contained only a JPG image of a car.
- While all the other detectives believe that this is just a regular image, your captain wants you to investigate if the image holds any secret messages.
- You must use steganography tools to determine if the image contains any hidden messages.

Instructions

1. Download the image of the car from [here](#) onto your VM, then open the file.
2. Run `steghide` to determine if the image file contains a secret message.
 - a. *Hint: The password is the brand of the car.* If you get stuck, ask your instructor or TA for help.
3. If the image contains a secret message, find out what it says.
